

ANT FARM

Need:

- Jars
- Sand
- Soil
- Tape
- Sugar
- Water
- Scissors
- Twigs
- Leaves
- Pin
- Various other items

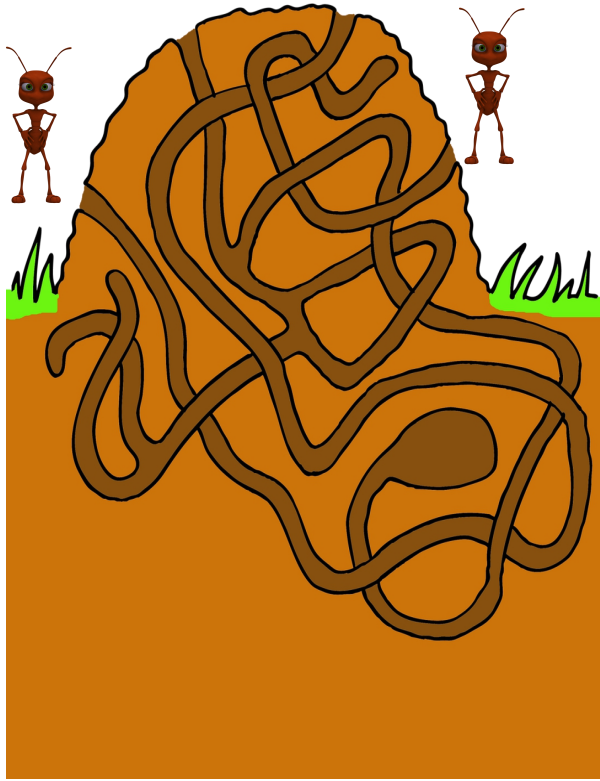

How To:

Clean the jars (soak to remove label)

Poke a few holes in the lid with the needle (small enough so the ants wont escape)

1/2 fill the jar with soil and sand and the top with twigs and leaves

Sprinkle a small amount of sugar around the leaves

GROUP WORKSHEET

On the underside of the jar lid mix some water with sugar and place outside in an area that commonly gets ants.

Once you have aprox 15 - 20 ants on the sugar lid transfer them to the jar and screw the jar lid on tightly so they don't escape.

REMEMBER:

To feed your ants once a week

You can feed them a couple of drops of sugar water and a couple grains of sugar
