

COLOUR CHANGING FLOWERS

Need:

Food Colouring - Red, Yellow, Blue

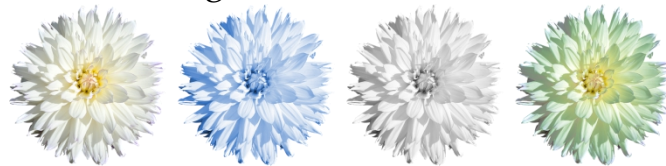

4 White flowers with long Stems

4 Cups

4 Spoons

4 Pipettes

Water

How to:

In 3 Cups use the pipette and spoon to create a mixture of food colouring and water (*1/3 fill the cups*)

Cup 1 - Red

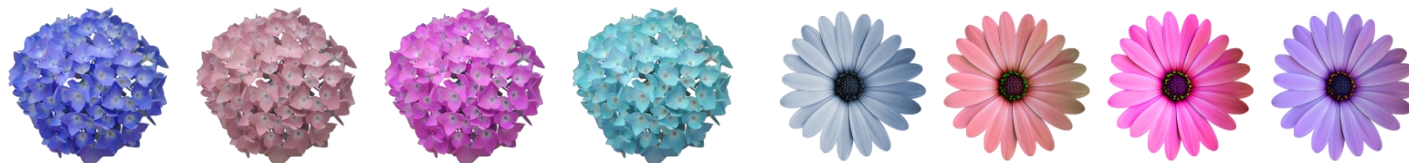

Cup 2 - Yellow

Cup 3 - Blue

In the 4th Cup just add plain water

Add in a flower to each cup

Wait a few hours

What happens to the flowers?

Experts Extension:

What other colour flowers can you create by mixing different amounts of the food dye?

How vibrant can you make the colour of the flower?
