

# Bluing Powder

## Need:

3 Cups Baking Powder

1/2 Teaspoon Ferric Ferrocyanide - Prussian Blue pigment

## How to:

Mix 3 cups baking soda with 1/2 tsp ferric ferrocyanide commonly known as Prussian Blue pigment

Stir until completely mixed

Store in air-tight containers at room temperature

## Note:

Bluing Powder can be found online in New Zealand at a handful of stockists such as Mighty Ape and Green Goddess

Bluing Powder is also commonly called Aniel powder.

Ferric ferrocyanide is available at Art Stores and Pure Nature
