

Crystal Sun Catcher

Need:

1/4 Cup Epsom Salts
Clear plastic lids
1/4 Cup Hot Water
Cup Or Jar
Baking Tray
Measuring Cups
Spoon
Baking Sheet
Food Colouring
String
Safety Pin

How to:

Mix 1/4 Cup of Epsom Salts and 1/4 Cup of Hot water and stir

Stir for a few minutes until the salts have dissolved

Add food colouring

Stir

Arrange a few lids on a baking tray

Pour some of the liquid in each lid

Place baking tray in sun and let the water evaporate

Once your crystal structure is dry poke a tiny hole in it with the safety pin

Thread through the string and hang in the sunlight
