

Fresh Water

vs

Salt Water

Need per group:

2 x Aluminium bowls per group

1 Glass tap or rain water

1 Glass ocean water or salt water (add a couple teaspoons of salt to water and stir)

2 x Candles

2 x Candle stands

How to:

Pour your two types of water into the two aluminium bowls

Light Candles

Place bowls over candle stand and let the water evaporate off

This can also be done in the sunshine for younger children

The salt water one will leave salt crystals in the bowl showing the difference
