

Sunscreen - Testing SPFs

What does SPF mean?

SPF stands for sun protection factor

Sun Protection Factor is a measure of how well sunscreen protects against UVB rays

Need:

Strip of coloured paper

Strip of black paper

SPF 30 Sunscreen

SPF 50 Sunscreen

2 Cotton Buds

How to:

On your strips of paper wipe one line of the SPF 30 and one line of the SPF 50

Leave in the sun for a few hours

Is there a difference?
