

# *Glow in the Dark Slime*

## **Need:**

Borax

Clear Glue

Glow in the dark Paint

Stirring Stick

Water

## **Ratio:**

1 Borax to 6 Glue

## **How to:**

Add a couple drops of bright green fluro green paint & a couple drops of yellow food colouring to your glue and stir

Add green glitter (optional)

In a separate bowl/cup create a borax solution

Add in a couple drops at a time and stir, repeat

Mix until the consistency is right

If needed add a couple drops more of water

Stir through

Put in sun to charge the glow in the dark pigments
