

# Bubble Snake Maker

**NOTE: Outside Activity**

## **Need:**

Plastic Bottle  
Scissors  
Rubber Band  
Sock  
Bubble Solution

## **How to:**

Cut off the bottom of the bottle - So there is holes at each end of the bottle

Slide Sock over the smaller end (top) of the bottle and pull down over the bottle

Pull the sock down so that it covers the bottle

Secure the sock in place with a rubber band

Dip the sock end of your snake maker into the bubble mixture

Blow through the top (open) end of your snake maker (end without sock)

When you blow air through the bottle a bubble snake should start to emerge on the opposite - sock end of the bubble snake maker
